

Acknowledgments

The Cayuga Lake Watershed Restoration & Protection Plan Project is greatly indebted to the many individuals and organizations who contributed their time, expertise, and resources during the development of this draft Watershed Restoration & Protection Plan. Their tireless efforts will greatly benefit future protection of the Cayuga Lake Watershed for years to come. The Cayuga Lake Watershed Restoration and Protection Plan process was initially funded by a grant to the Town of Ledyard from the New York State Environmental Protection Fund through the New York State Department of State (NYS DOS) Local Waterfront Revitalization Program. Subsequent funding for the project has been provided by the Empire State Development Corporation (ESD), New York State Department of Environmental Conservation (NYS DEC), United States Environmental Protection Agency (USEPA) and the municipal members of the Cayuga Lake Watershed Intermunicipal Organization (IO). Local and in-kind match has been provided by the Town of Ledyard, Central New York Regional Planning & Development Board (CNYRPDB), Genesee/Finger Lakes Regional Planning Council (G/FLRPC), and the members of the IO and the IO Committees including Technical, Education/ Public Participation & Outreach, and Agriculture.

The Cayuga Lake Watershed Restoration & Protection Plan Project would like to thank all of the members of the Cayuga Lake Watershed Intermunicipal Organization (IO), IO Technical Committee, IO Agriculture Committee, and the IO Education, Public Participation & Outreach Committee (see Appendix A) for sharing their wide array of experience and technical skills. There is great appreciation for the time and efforts of all of the private citizens as well.
